# About Us

Baker Boys Ltd is an independent specialist cake Manufacturer. We are based at our 30,000 sq foot state of the art bakery in West Bromwich, just a minute away from M5 Junction

Our customers vary from one man van sales to large distribution companies supplying right across the UK.

Most of our products and packaging are developed by ourselves inhouse and always copied by others, we take this as a compliment and extremely rewarding to be looked upon as the trend setters.

We are continually seeking new partners and markets to expand our customer and product portfolio.

If you are that customer or require a product that is unique please contact us, if you are not any of the above please enjoy the taste.
